All proceeds benefit

Down Syndrome

Down Syndrome is a common genetic variation which usually causes delay in physical, intellectual, and language development. The exact cause and prevention of Down Syndrome are unknown.

Cystic Fibrosis (CF)

Cystic Fibrosis (CF) is a genetic, life-threatening lung disorder that affects 30,000 people in the U.S. The median life expectancy is 36.8 years of age. At the present time, there is no cure for CF.

In consideration of this entry, I intending to be legally bound hereby for myself, my heirs, executors and administrators, waive and release any and all rights and claims for damages or injuries I may have in said event against the City of Washington, Down Syndrome Society and/or the Cystic Fibrosis Foundation. I give permission to the City of Washington to use any pictures, video footage, etc. that is taken at the walk in future promotional materials.
